## UNIQUENESS OF LOYOLA-ICAM

LICET aims at training young men and women of quality, capable of leading the society in all walks of life and to serve their fellow human beings in justice, truth, love and compassion. LICET is evolving as a center of global learning. LICET is inspiring creative in its curriculum and it empowers the students for the world of tomorrow. The staff and students exchange programmes with universities abroad gives LICET members a global exposure needed for national and international leadership with social responsibility. LICET offers a collective enterprise contributing to the formation of engineers who would promote growth in individuals and in society.

## ABOUT DEPARTMENT OF IT

The primary objective of the Department of Information Technology at LICET is to prepare our students to apply their technical skills to comprehend and analyze complex problems to design and implement the feasible solutions. Graduates have continued to learn, and have contributed to their organizations through leadership and teamwork and excel in competitive participations at global level. Graduates exhibit professional ethics, management skills and responsibility towards societal needs. With rapidly evolving technology and the continuous need for innovation the department has always produced quality professionals.
